

Circuit Diagram

[200W]

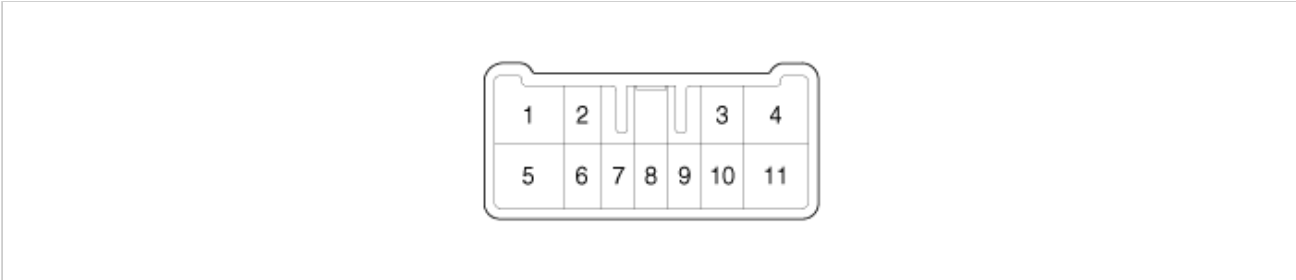

[400W]

Terminal Function

[200W]

| Pin. | Description | Pin. | Description |
|------|-------------|------|-------------|
|      |             |      |             |

|   |                           |    |                  |
|---|---------------------------|----|------------------|
| 1 | Battery power (B+) input  | 7  | ISG signal input |
| 2 | -                         | 8  | ACC input        |
| 3 | -                         | 9  | ACC output       |
| 4 | Battery power (B+) output | 10 | Ground           |
| 5 | -                         | 11 | -                |
| 6 | IGN1 input                |    |                  |
