

## Removal

1. Switch "OFF" the ignition and disconnect the negative (-) battery terminal.
2. Remove the rear-left wheel & tire and wheel house cover.
3. Remove the fuel tank air filter & canister close valve assembly.  
(Refer to Emission Control System - Fuel Tank Air Filter")
4. Disconnect the vapor hose quick-connector (A).
5. Remove the canister assembly (C) from the vehicle after removing the mounting nuts (B).

## Inspection

1. Check for the following items visually.
  - Cracks or leakage of the canister
  - Loose connection, distortion, or damage of the vapor hose/tube

- A: Canister ↔ Atmosphere  
B: Canister ↔ Fuel Tank  
C: Canister ↔ Intake Manifold

## Installation

1. Install in the reverse order of removal.
